

# Vodafone Protect & Connect

Remote management of your vehicle with **theft tracking** on demand

**Vodafone**  
Power to you

With a vehicle stolen every 6 minutes in the UK,\* vehicle theft still remains a problem. Whilst in today's connected world, vehicle drivers don't just want simple tracking protection anymore, they want to be able to connect remotely to it and access different services. **Vodafone Protect & Connect** utilises Vodafone Automotive's 40+ years' experience in vehicle security and telematics to bring you the latest theft tracking and connected car technology.

#### Affordable tracking protection for your vehicle

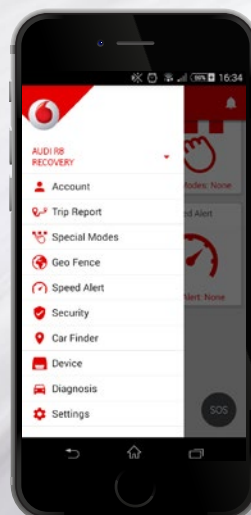

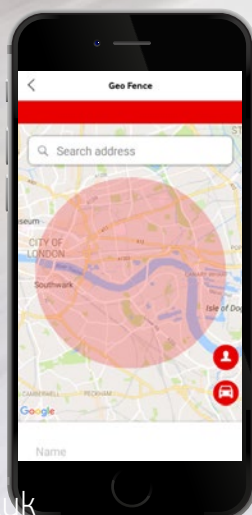

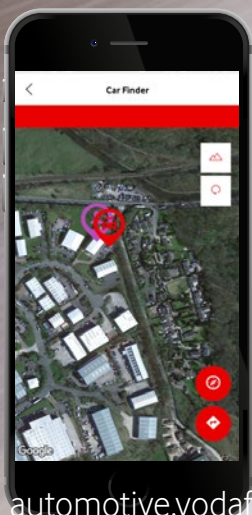

Vodafone Protect & Connect gives you the ability to remotely monitor your vehicle whilst also having the European leader for stolen vehicle tracking services as a backup to recover the vehicle in the unfortunate event of a theft. Vodafone Protect & Connect uses the latest GPS / GPRS / GSM technology, providing pinpoint accuracy and unparalleled service levels. It is installed covertly into your car so thieves have no idea that a tracking system is present.

#### A connected car experience

With Vodafone Protect & Connect, remote management of your vehicle is now in your hands. Through a dedicated mobile & web application, you have the ability to access and manage a number of safety and security features that Vodafone Protect & Connect offers. The 'My Connected Car' mobile app provides easy access to vehicle information such as; real-time vehicle location, directions to the vehicle and geofence ability.

#### Class leading services for recovery

As the European market leader for stolen vehicle recovery, Vodafone Automotive has built up a network of secure operating centres to be able to recover vehicles in 49 countries worldwide, with local language police liaison.
